Backend & Database: PHP, MySQL

CMS & E-Commerce: WordPress, WooCommerce, Theme Customization, Plugin Development

Tools: Git, GitHub, VS Code, Google Analytics, Google Search Console, Postman

Concepts: SEO Optimization, Payment Gateway Integration, REST APIs, Website Performance Tuning, Security Basics

PROFESSIONAL EXPERIENCE

Web Developer Intern Thinkbright Web Solutions, Tiruttani

June 2025 – May 2026

- Engineered and launched 4+ production WooCommerce stores for business clients, consistently meeting deadlines and achieving client approval.
- Integrated secure payment gateways (Razorpay/PayU) with SSL-compliant checkout, reducing payment failure rate and improving transaction reliability.
- Customized WordPress themes and built custom plugins, reducing development turnaround time by ~30% and improving team delivery speed.
- Applied on-page SEO strategies, meta tags, schema markup, URL structuring boosting client store visibility on Google Search.
- Conducted Google PageSpeed audits and optimized images, scripts, and assets, achieving 20+ point improvements in site performance scores.

PROJECTS

Arul Kumaran Tex – Live WooCommerce Store | aktbuy.in

WordPress · WooCommerce · PHP · MySQL · JavaScript

- Built a complete online textile store with dynamic product catalog, cart, and secure checkout serving live customers daily.
- Optimized page load speed by 40% via lazy loading and image compression, significantly improving mobile experience and reducing bounce rate.

SS Qube Outfit – Fashion E-Commerce Platform | ssqube.in

WordPress · WooCommerce · CSS3 · Google Analytics

- Developed scalable clothing platform with advanced product filtering, size variants, and a data-tracked conversion funnel.
- Integrated Google Analytics to monitor traffic sources and user behavior, enabling data-driven UI decisions.

Kyubi Fashions – Responsive Online Store | kyubifashions.in

WordPress · WooCommerce · Mobile-First Design

- Delivered mobile-first fashion store; restructured layouts improving mobile usability score and reducing bounce rate.

Thinkbright Publications – Book Store | thinkbrightpublications.com

WordPress · WooCommerce · SEO · PHP

- Built SEO-optimized online bookstore with breadcrumb navigation; improved Google Search rankings for key titles.

DarkShield – Mobile Theft Detection System (Final Year Project)

Android · Kotlin · Firebase · Machine Learning

- Built Android app capturing intruder selfies on failed unlocks, sending real-time GPS alerts via Email and SMS.
- Implemented SIM-swap detection and ML anomaly detection, providing layered proactive device security.

EDUCATION

Bachelor of Information Technology | Jaya Engineering College, Chennai

2022 – 2026

Relevant Coursework: Web Development, Databases, Software Engineering

CERTIFICATIONS & TRAINING

- Self-taught WordPress & WooCommerce ecosystem through structured online learning (Udemy, YouTube, documentation).
- Continuously upskilling in modern web technologies including performance optimization, REST APIs, and headless CMS concepts.

KEY HIGHLIGHTS

- Deployed 4+ real client websites during internship measurable business impact from first month of joining.
- DarkShield final year project recognized for innovative ML-based mobile security approach.
- Proven ability to manage multiple client projects simultaneously, meeting all delivery timelines.
- Active contributor to open-source projects and GitHub repositories github.com/DINESHJ02
